The motor vehicle tax is calculated for motorbikes and passenger cars subject to registration according to the engine capacity, and for all other vehicles according to the total weight permitted by traffic law. For passenger cars, mobile homes and for trucks over 3.5 t total weight, the emission behaviour is also decisive.</p> <p>For the assessment of pollutant emissions, carbon dioxide emissions ("CO2 tax" for passenger cars from 1.7.2009) and for the assessment of other bases of taxation of a technical nature, the findings of the transport authorities (registration offices) are binding.</p>

Please note: An annual tax of more than EUR 500 can be paid in equal semi-annual amounts plus three percent. If the annual tax is more than EUR 1,000, payment can be made in equal quarterly amounts plus six percent.

Vehicle deregistration and tax refund

If the tax liability ends, for example because you deregister your vehicle, a new amount will be assessed for the last period between the start and deregistration. The excess tax paid in advance will then be refunded to you.

If a vehicle is sold, the tax liability for the seller ends at the time when the prescribed notification of sale is received by the registration authority, at the latest when the new vehicle registration certificate is handed over to the purchaser. In addition to the notification of the purchaser's address, such notification also includes confirmation of receipt of the vehicle documents (see also information in the vehicle registration certificate and motor vehicle tax notice).

The acquirer can act in an exempting capacity for the transferor by fulfilling the obligation incumbent upon him to register or re-register the vehicle in his name. If the transferee does not fulfil this obligation, the previous vehicle owner cannot invoke the fact that the transferee is obliged to register or re-register the vehicle under the agreements made.

The transferor bears the full risk of non-termination of his tax liability if he fails to submit the prescribed notice of sale to the registration office himself.

Change of bank details

If your bank details change, you must notify the Dresden Main Customs Office of the new account details as soon as possible. To do this, issue a new SEPA direct debit mandate for the collection of vehicle
