Verfahrensablauf	• Contact the State Youth Welfare Office (Landesjugendamt) to find out whether the intended offer is the operation of a facility requiring a permit. • If this is the case, you must submit an application for an operating licence, enclosing other necessary documents. In particular, the concept of the facility must be submitted with the application. • The State Youth Welfare Office examines the submitted documents and advises you on the further requirements. • It always conducts a local inspection before opening a new facility, with the participation of the provider, the responsible youth welfare office, other responsible specialised offices and the central association organisation. The results of the inspection are summarised in an inspection report and sent to the parties involved. • If the prerequisites for operating a facility are met, it receives the corresponding notice of approval from the State Youth Welfare Office (Landesjugendamt). • If certain prerequisites are missing, a notice may be provided with ancillary provisions or the application for an operating permit may be rejected.
