Hinweise	Municipalities and cities may collect and process personal data (surname, first name, academic degree, date of birth, address, telephone numbers, email addresses, number of appointments made as a member of an election committee and the function exercised) of eligible voters for the purpose of appointing them as election assistants. The data may also be processed for future elections, provided the data subjects have not objected to the processing of their data. The data subjects must be informed of their right to object. Poll workers are entitled to reimbursement of their necessary expenses and loss of earnings (for example, if the count is interrupted during the night and resumed on Monday morning).
