Research

- In the reading rooms you can use all available finding aids (databases, card indexes, finding aids) to carry out your research for relevant archive material.
- To order an archival item from the stacks to the reading room, you need the five-digit fonds signature and the archival shelfmark for the order slip. The staff will retrieve the archival items from the stacks at specific times.

Tip: If necessary, you can often make copies yourself directly in the reading room using a book or film scanner in analogue or digital form, or you can photograph archive material yourself.
