Teaser	In an emergency, the control centres of the authorities and organisations with security tasks (BOS) receive requests for assistance via nationwide standardised call numbers. They alert the rescue stations and, if necessary, other facilities and personnel of the rescue service. They direct and monitor the operations of the ambulances, emergency ambulances, emergency ambulances and other rescue vehicles deployed in the rescue service area.
Volltext	In an emergency, the control centres of the authorities and organisations with security tasks (BOS) receive requests for assistance via nationwide standardised call numbers. They alert the rescue stations and, if necessary, other facilities and personnel of the rescue service. They direct and monitor the operations of the ambulances, emergency ambulances, emergency ambulances and other rescue vehicles deployed in the rescue service area. In the Free State of Saxony, there are only joint control centres of the fire brigade and the rescue service for emergency operations. Ambulance service When called on 19 222, the control centres organise the operation. Emergency In an emergency, always dial 112 without area code, even from a mobile phone.
