Teaser	This grant supports measures that increase the energy efficiency of a building
Volltext	<p>#### Application for an investment grant for the renovation of an efficient residential building, non-residential building or individual energy measures, Federal Support for Efficient Buildings (BEG)</p> <p>This grant supports measures that increase the energy efficiency of a building</p> <p>#### What is funded?</p> <ul style="list-style-type: none"> • Individual measures on the building envelope • Plant technology (except heating) • Heat generation systems (heating technology) • Heating system optimisation • Technical planning and construction supervision <p>### Conditions</p> <p>_Type of funding_ Non-repayable grant (share financing)</p> <p>_Amount_ _(share of eligible costs)</p> <ul style="list-style-type: none"> • Individual measures on the building envelope: 20 % • Plant technology (except heating): 20 % • Heat generation systems: 20 % to 40 %

Modul

Sachverhalt

- Heating optimisation: 20 % of
- Technical planning and construction supervision: 50 %

Maximum amount

for residential buildings:

- EUR 60,000 for energy-related renovation measures per residential unit
- EUR 5,000 for construction supervision for single- and two-family houses
- EUR 2,000 for construction supervision for multi-family houses with three or more residential units, maximum EUR 20,000 per funding decision

for non-residential buildings:

- EUR 1,000 per square metre of net floor area for refurbishment measures, maximum EUR 15 million
- EUR 5.00 per square metre of net floor area for construction supervision, maximum EUR 20,000 per award notice

****Note:**** The programme can be combined with other funding programmes.

Erforderliche Unterlagen

Please visit the website of the Federal Office of Economics and Export Control for information on the necessary documents, forms and evidence.

Voraussetzungen

The subsidised buildings must be used for their intended purpose for at least ten years.

Eligible applicants

- Private individuals and homeowners' associations
- freelance professionals
- Municipal regional authorities, municipal

Modul

Sachverhalt

associations of municipalities and special-purpose associations, as well as legally dependent proprietary enterprises of municipal regional authorities, insofar as they act for the purpose of providing services of general interest

- Corporations and institutions under public law, e.g. chambers of commerce or associations
- non-profit organisations, including churches
- Enterprises, including sole traders and municipal enterprises
- other legal entities under private law, including housing cooperatives

Excluded from this funding

- Subsequent financing of projects that have already been started or completed

****Note:**** Eligibility applies to owners, tenants or lessees of the land, part of the land, building or part of the building on or in which the measure is to be implemented, as well as to contractors.

Energy efficiency experts

In the case of individual measures on the building envelope and systems engineering, an energy efficiency expert must be involved.

Kosten

Application: none

Verfahrensablauf

Submitting an application without involving an energy efficiency expert

- Submit an application via the electronic application form before concluding a contract and commissioning services.
- Cost estimates for the eligible services should already be available.
- You can then start the measure at your own financial risk.

Modul

Sachverhalt

- The sum of the stated costs is the basis for the funding decision.

Application with the involvement of an energy efficiency expert

- Contact an energy efficiency expert. He or she will prepare a technical project description.
- If everything is correct, you will be given the opportunity to submit your application electronically.

****Note:**** The grant will be paid out after positive completion of the review of the proof of use.

Bearbeitungsdauer

Frist

- Application: before the start of the project
- Submission of proof of use: no later than six months after the end of the funding period
- Operational implementation of the measure: As a rule, 24 months after the award of the grant
- Maximum approval period for individual measures: 48 months
