Volltext	Apply for notification as an examination centre for sewage sludge and soil in accordance with the Sewage Sludge Ordinance in waste management.

Modul

Sachverhalt

If you act as a centre for the examination of sewage sludge and/or soil under the Sewage Sludge Ordinance, you must have been notified in advance.

Sewage sludge producers are obliged to test the soil for certain parameters before applying or introducing sewage sludge or sewage sludge mixtures. Sewage sludge must also be analysed before it is released.

If you wish to carry out these tests, you must apply to the competent authority of the federal state to designate you as a testing centre in the waste management sector. The notification or designation applies to the entire federal territory.

Single point of contact

You can utilise the services of the Single Point of Contact for this procedure. They will guide you through the procedure, take care of correspondence with all the authorities responsible for your request and provide you with expert advice.

- Single point of contact Amt24-Informationen

Erforderliche Unterlagen

- Application letter,
- Valid accreditation certificate in accordance with DIN EN ISO/IEC 17025 including the annex to the certificate and the accreditation decision of the Deutsche Akkreditierungsstelle GmbH (DAkkS) and
- Reports on the last corresponding assessment including any deviation reports,
- Declaration of consent on the transfer of information between the countries and the accreditation body (see Part 1 Number 1.3.1, Waste module/ Status: May 2023)
- Current (not older than 2 years) certificate of successful participation in the round robin test in accordance with the Sewage Sludge Ordinance
- Insurance policy for risk-adequate property damage liability insurance,
- Copy of the licence for working with pathogens in accordance with Section 44 of the German Infection Protection Act (InfSchG), if required for the examination task applied for,

Modul

Sachverhalt

- Current partnership agreement with details of the natural or legal persons authorised to represent the company and a current extract from the commercial register,
- List of internal and external samplers, contract between the inspection body and the sampler and the date of the last internal and external audit of the sampler.

Note: An external sampler is a person who is not or not permanently employed by the laboratory and who is contractually integrated into the laboratory's quality management system. They may be employed by another employer or work on a freelance basis.

You can view the Waste technical module (as of May 2023) on the LAGA website (see -> Legal basis).

Evidence from other EU/EEC contracting states:

- When examining the application for notification in accordance with the AbfKlärV, evidence from another member state of the European Union or another signatory state to the Agreement on the European Economic Area will be treated as equivalent to evidence from Germany if it shows that you as the applicant fulfil the relevant requirements for expertise, independence, reliability and technical equipment.
- Submit the certificates with your application in the original or as a copy; the competent authority may require the copy to be notarised and a certified German translation.

Voraussetzungen

- You submit the application in Saxony if you have your registered office in Saxony or if you primarily want to carry out your activity in Saxony (if you have your registered office abroad).
- You have the required Specialised knowledge, Independence, Reliability, technical equipment and carry out quality assurance and quality control measures, including regular successful participation in round robin tests.

Kosten

- Fee range: EUR 50.00 to EUR 500.00 (depending on expenses)

Modul

Sachverhalt

Verfahrensablauf

You submit an informal application for notification as an inspection body for soil and/or sewage sludge to the authority of the federal state in which you have your registered office. If your place of business is abroad, submit the application in the federal state in which you will primarily carry out your testing activities.

Proceed as follows:

- Create the informal application and attach the required documents. If necessary, the competent authority will request further application documents.
- If you wish to enclose equivalent recognition and evidence from another member state of the European Union or another signatory state to the Agreement on the European Economic Area with the application, these documents must be submitted before commencing the activity.
- The competent authority may request a certified German translation of foreign equivalent recognition and evidence.
- After examination by the competent body, you will receive a written decision as to whether you will be notified as an examination and investigation centre.
- The competent body may attach a reservation of revocation, a time limit, conditions, requirements and the reservation of conditions to the notification.

Bearbeitungsdauer

3 months after submission of the complete application documents

Frist

- Time limit of the notice: maximum five years. You will find precise information on the time limit in your notification.
- Application for extension of the time limit: at the latest four months before the expiry of the still valid notice

weiterführende Informationen

Hinweise

- Reference is made to the regulations on the notification procedure in the Waste module from May 2023.
- The notice is published in the Research System for Measuring Bodies and Experts (ReSyMeSa) under the

Modul	Sachverhalt
	Waste module. • Interlaboratory comparisons for the testing of inspection bodies are offered annually by various bodies. Information on interlaboratory comparisons can be found in the ReSyMeSa search system under "Interlaboratory comparison plan" (see -> Further information).
