Teaser	If you wish to transport other radioactive materials on public transport routes, you require a licence under radiation protection law from the competent authority.
Volltext	<p>If you wish to transport other radioactive materials on public transport routes, you require a licence under radiation protection law from the competent authority.</p> <p>In the following cases, you do not require a licence under radiation protection law for transport:</p> <ul style="list-style-type: none"> • if the radioactivity of the substances is sufficiently low that you can handle them without a licence under radiation protection law, • if these substances are completely exempt from the application of the regulations for the transport of dangerous goods with regard to their radioactivity, or • if these substances can be transported as excepted packages in accordance with the regulations for the transport of dangerous goods. <p>**Note:** If you wish to transport large sources or nuclear fuels, the "BASE" is the competent authority. Major sources are other radioactive substances with an activity of more than 1,000 terabecquerels.</p>

Modul

Sachverhalt

****Note:**** The regulations of the dangerous goods law must also be taken into account.

Erforderliche Unterlagen

- Certificate of good conduct for the applicant (document type O, must be applied for)
 - Documents describing the planned transport and proving that the protective regulations of the Radiation Protection Act and the Radiation Protection Ordinance will be complied with
 - Letter of appointment and proof of expertise of the radiation protection officer
 - Letter of appointment and proof of training of the dangerous goods officers
 - List of vehicle drivers and proof of the required training (e.g. ADR certificate)
 - Radiation protection instructions

List of notes for application documents

Voraussetzungen

- The sender, consignor, carrier and transport personnel must be reliable
 - the radiation protection officer must be reliable and have the necessary expertise in radiation protection
 - the necessary number of radiation protection officers must be appointed and granted the necessary authorisations
 - the transport must be carried out by persons who have the necessary knowledge and skills with regard to the possible radiation hazard and the protective measures to be applied
- The other radioactive materials must be transported in compliance with the legal provisions applicable to the respective mode of transport.
 - The necessary precautions must be taken to fulfil statutory compensation obligations.
 - The necessary protection against interference or other effects of third parties must be guaranteed
 - The transport of other radioactive substances with an activity of more than 1010times the exemption limit according to Annex 4 Table 1 Column 2 StrISchV requires an accident prevention plan
 - The choice of the type, time and route of transport

Modul	Sachverhalt
	must not conflict with the protection of the public from the harmful effects of ionising radiation.
Kosten	Fee range from EUR 278.00 to EUR 1,109.00 (depending on expenses)
Verfahrensablauf	<ul style="list-style-type: none"> • You can apply for the transport of other radioactive substances by submitting an informal written application to the competent authority. • Please enclose the information listed under "Required documents" with the application. • The competent body will check the application received and will address any questions or additional requirements to the contact person you have specified. • If all requirements are met, the responsible office will send you the notification and the invoice to be paid by post.
Bearbeitungsdauer	• at least two weeks The processing time depends on the completeness of the documents you submit.
Frist	Period of validity: up to three years The authorisation can be issued for a large number of transport operations, but for a maximum of three years.
weiterführende Informationen	
Hinweise	<p>You can only apply for a transport licence from the State Office for Environment, Agriculture and Geology if you have your habitual residence in Saxony or if your institution has its registered office in Saxony.</p> <p>If you have your habitual residence abroad or if your institution has its registered office abroad, you can apply for a transport licence from the State Office for the Environment, Agriculture and Geology if the transport route in Germany usually begins in Saxony.</p>
