Teaser	If you would like to launch children's balloons or fireworks within a radius of 1.5 kilometers of an airfield at an anniversary or event celebration, you will require a permit or exemption under aviation law. The same applies to flying kites and operating spotlights or lasers. In addition to the location, the height of the ascent and the number of balloons are also decisive. **Note:** The ascent of so-called sky lanterns is generally prohibited in the Free State of Saxony.

Informationen

Hinweise (Besonderheiten)

The launching of category F2 fireworks (in the period from 02.01. to 30.12.) as well as categories F3, F4, P2 and T2 or at a distance of less than 1.5 km from the boundary of airfields requires permission from the state aviation authority.

The commercial use of pyrotechnics of category F2 must be reported to the public order office in accordance with the Ordinance to the Explosives Act (1st SprengV); for private use you require an exemption permit under explosives law.
