Teaser	Commercial enterprises from the production and service sectors can receive a subsidy for their investments.
Volltext	<p>You can receive a subsidy for investments in your business in Saarland with the individual company investment subsidy.</p> <p>Funding is available for investments in tangible fixed assets. These can be buildings, machines, software or office equipment. Investments in used assets are only eligible in exceptional cases. There is also a de minimis limit for investments of no more than 25,000 euros (net).</p> <p>The subsidy rate depends on where in Saarland your business premises are located and how large your company is. The maximum subsidy is 30% of all eligible investments.</p> <p>Whether a subsidy is possible depends, among other things, on the sector to which your company belongs. Retail businesses, construction and waste disposal companies, training companies, health and leisure facilities, for example, are excluded from funding.</p>
