## Modul

## Sachverhalt

The placement of a childcare place in a child daycare facility takes place in cooperation with the responsible local youth welfare organization.

The scope of care varies from state to state and local authority to local authority.

## Erforderliche Unterlagen

### Voraussetzungen

A child who is 1 year old or older is entitled to early childhood support in a daycare facility or in a daycare center until their 3rd birthday.

If both parents are unable to look after their child themselves, children under the age of 1 may already be entitled to early childhood support. This is the case, for example, if both parents are working.

From the 3rd birthday until the child starts school, the child is entitled to support in a day care center.

### Kosten

The amount of your costs depends, among other things, on the amount of parental contributions, the local facility, the type of care (kindergarten, crèche, after-school care) and the scope of care (e.g. half-day or full-day).

You can obtain more detailed information on this from your local authority. This may differ from your place of residence if you wish to have your child cared for near your place of work.

After selecting the location where you would like to have your child looked after, you will be shown the contact details of the responsible office.

### Verfahrensablauf

Parents should contact the responsible office in good time to find out whether there are any childcare places available.

You can find these by selecting the location where you would like to have your child looked after.

Personal contact or a personal meeting between you and the KiTa is useful and usually possible. Many facilities offer an introduction to their facility before
