Teaser	If you would like to fish in Schleswig-Holstein without a fishing license, you can apply for a vacation fishing license for a limited period of 28 days.
Volltext	If you want to go fishing in Schleswig-Holstein, you must have a valid fishing license and carry it with you. An exception is the temporary and examination-free fishing license, better known as a vacation fishing license. This allows you to fish for up to 28 days. You can extend the vacation fishing license once by applying again for a further 28 days. Please note that the vacation fishing license is an exemption from the general fishing license requirement. This option was created by the legislator to facilitate short-term access and first contact with fishing, especially for tourists. The vacation fishing license does not replace the regular fishing license.
