Sachverhalt

- Acknowledgement of paternity can be made at any city office, youth welfare office or notary public.
- The acknowledgement is not subject to receipt and does not require receipt by a particular registry office or other authority in order to be effective.
- The prohibition of abusive acknowledgement of paternity in accordance with § 1597a applies. BGB
- An acknowledgement of paternity to a child is not effective as long as the paternity of another man exists (blocking effect).
- An acknowledgment under condition or time provision is ineffective.
- There must be no effective revocation by the recognising party.
- The recognition requires the consent of the mother.
- Recognition also requires the consent of the child if the mother is not entitled to parental care in this respect.
- The effectiveness of the declaration on the acknowledgement of paternity is not dependent on the actual parentage relationships; (legal) paternity comes into existence solely through the effective submission of the declarations of acknowledgement and all necessary declarations of consent. Acknowledgement of paternity can also be made before the birth of the child.
- A person with limited legal capacity can only acknowledge paternity himself or herself, but requires the consent of the legal representative. For those who are incapacitated, the legal representative can acknowledge with the approval of the family court; if the legal representative is a guardian, the approval of the guardianship court is required.
- The same rules apply to the mother's consent.
- For an incapacitated child, or a child who is under 14 years of age, only the legal representative may consent to the recognition.
- Acknowledgements or consents cannot be declared by an authorised person.

Kosten

The acknowledgement of paternity and the declarations of consent are free of charge.

If necessary, € 30 for the affirmation in lieu of an interpreter.
