Teaser	The operating license confirms that the vehicle is approved for use on public roads.
Volltext	The operating license, together with the registration plate, is part of the registration procedure for motor vehicles on public roads. An operating license is a confirmation that the vehicle complies with the relevant regulations. It is issued for type-approved vehicles by the Federal Motor Transport Authority (KBA) or comparable institutions in other countries of the European Union and for vehicles without type approval by the registration authority as an individual approval. The expiry of the operating license is regulated in Section 19 (2) StVZO. Driving without or with an expired operating license is an administrative offence; the registration authority can also prohibit operation and cancel the license plate.
