Teaser	The digital recording equipment is used to record driving and rest times.
Volltext	<p>The use of a digital recording equipment is mandatory for certain motor vehicles that were first placed on the market on or after May 1, 2006. This applies to vehicles which</p> <ul style="list-style-type: none"> • are used to transport goods and whose gross vehicle weight, including trailers or semi-trailers, exceeds 3.5 tons and • Vehicles that are used to transport passengers and which, due to their design and equipment, are suitable and intended to carry more than nine people, including the driver. <p>The digital recording device records driving and rest times, makes manipulation to the detriment of general road safety more difficult and facilitates checks. The driver card replaces the previous tachograph disk and stores the driving and rest times for at least 28 days. After that, the oldest data is overwritten. Each driver may only have one valid driver card. This is checked (national: Central Tachograph Card Register, international: TACHOnet). The following data can be read:</p> <ul style="list-style-type: none"> • Surname, first name, date of birth, photograph and signature of the applicant,
