## Modul

## Sachverhalt

- speeding problems,
- Aggression in road traffic.

The following extracurricular events are possible, depending on the group of participants:

- Lectures in clubs for the elderly and retirement homes,
- Visits to youth clubs,
- Presentations in companies, authorities, associations, societies and traffic clubs,
- Municipal road safety days/campaigns.

While compliance with traffic rules is of vital importance for vulnerable road users in particular, other road users must be encouraged to behave considerately and defensively towards vulnerable road users. In this context, all target groups need to understand the meaning and purpose of the desired compliance with the rules, over and above the mere transfer of knowledge.
