Sachverhalt

direct treatment of their own patients are exempt from the licensing requirement. These include

- Doctors,
- dentists and
- veterinarians;
- Persons who carry out microbiological quality assurance work and have the necessary expertise and the competent authority exempts them from the permit requirement upon request;
- Employees who work under the supervision of a person who has a permit or is exempt from the permit requirement;
- certain procedures, for example sterility tests;

If you belong to one of the above-mentioned groups, please contact the authority responsible for you before starting work. You must register your activity there.

Erforderliche Unterlagen

Proof of a degree:

- Proof of completion of a degree course in human, dental or veterinary medicine, pharmacy or
- Proof of completion of a natural science course at a university of applied sciences or university with microbiological content by means of semester certificates, examination certificates, license to practice medicine or final examination or exam

Proof of employment:

- Proof of two years of full-time work with pathogens under the supervision of a person with a license or
- Proof of another two years of full-time professional work in bacteriology, mycology, parasitology or virology, if equivalent expertise was acquired in the process

Proof of reliability:

- Police clearance certificate (document type O)

Voraussetzungen

- You have the necessary expertise and can demonstrate this through
- one of the following degrees: Human, dental or
