	necessary countermeasures. These can be, for example, the killing or quarantine of the animals.
Bearbeitungsdauer	The competent authority shall immediately take the necessary steps to clarify the suspected animal disease. The duration of the animal disease investigation and the necessary measures depends on the type of animal disease. It can range from a few days if the suspicion is ruled out to several months if the epidemic gets out of hand.
Frist	You must report your suspicions immediately.
weiterführende Informationen	
Hinweise	You can receive compensation for animal losses due to animal diseases according to the Animal Health Act. You can find more information in the service description "Applying for compensation from the Tierseuchenkasse".
