Voraussetzungen	<ul style="list-style-type: none"> • The competent authority must be able to adequately assess the impact of the planned installation from the application and the required documents. • Your application must show a justified interest in the early start. • When submitting the application, you must undertake to compensate for all damage caused by the premature construction until a decision is made. If you do not receive authorisation, you must restore the previous condition. • An application for premature construction of an installation requiring authorisation is only possible as part of a procedure for the granting of an immission control permit.
Kosten	The fees are based on the investment costs for the system.
Verfahrensablauf	<ul style="list-style-type: none"> • The application for early construction of an installation requiring a permit under immission control law is only possible as part of a procedure for the granting of a permit under immission control law. • As soon as the competent authority has completed its review and the requirements for early construction have been met, you will receive a corresponding notification from the competent authority.
Bearbeitungsdauer	
Frist	You must submit the application before you start building the system.
weiterführende Informationen	
Hinweise	<p>Coordinate in advance with the responsible immission control authority regarding the required documents.</p> <p>If you wish to have significant changes to an installation requiring authorisation approved, the competent authority can also provisionally authorise the operation of the installation if the change serves to ensure the lawful construction or operation of the installation.</p>

Modul

Sachverhalt

The application for early construction of an installation requiring authorisation under immission control law is only possible as part of a procedure for the granting of an immission control permit. The application is made as part of the administrative service "Immission control - Applying for the construction and operation of a plant requiring authorisation under the BImSchG"
