Teaser	<p>When taking over an existing installation for handling substances hazardous to water, you as the new operator of the installation are obliged to notify the competent authority of this change of operator without delay. With the notification, you provide the competent authority with information on the previous and new operators, the owner and the takeover of the installation. The obligation to notify does not generally apply to heating oil consumer plants and slurry, liquid manure and silage seepage plants (JGS plants). However, by notifying the competent authority of a change of operator for such installations, you facilitate communication</p>
