Handlungsgrundlage	Verordnung über mittelgroße Feuerungs-, Gasturbinen- und Verbrennungsmotoranlagen (44. BImSchV): • § 6 Absatz 5 Registrierung von Feuerungsanlagen
Teaser	As the operator of a combustion plant (medium-sized combustion plant, gas turbine and internal combustion engine plant), you are obliged to notify the competent immission control authority of the final decommissioning of the plant without delay, but within one month at the latest.
Volltext	As the operator of a combustion plant (medium-sized combustion plant, gas turbine and internal combustion engine plant), you are obliged to notify the competent immission control authority of the final decommissioning of the plant without delay, but within one month at the latest.
Erforderliche Unterlagen	• Name and registered office of the operator • Details of the individual furnaces to be decommissioned • Date of decommissioning
Voraussetzungen	You wish to permanently decommission a combustion plant within the scope of the 44th BImSchV (medium-sized combustion, gas turbine or internal combustion engine plant).
Kosten	There are no costs.
Verfahrensablauf	The notification of decommissioning must be submitted electronically to the competent authority.

Modul	Sachverhalt
	The authority checks the notification formally and for completeness. If the notification is incomplete, the competent authority will issue a notification. Once the inspection has been passed, the competent authority deletes the installation from the register of installations.
Bearbeitungsdauer	
Frist	You must report the final decommissioning of the system within one month.
