If so, you must prove that you have acquired the necessary expertise from the competent authority for

Modul

Sachverhalt

radiation protection.

If you intend to work as a medical physics expert, operate X-ray equipment or equipment for generating ionising radiation or handle radioactive substances, you will need a certificate of competence from the competent authority for radiation protection as proof of the specialist knowledge you have acquired. The employer can also submit the application for a certificate of specialised knowledge in radiation protection for their employees.

If you have all the necessary evidence, you can apply to the competent authority for radiation protection for yourself or for your employee to obtain a certificate of qualification in radiation protection.

Erforderliche Unterlagen

- Proof of suitable training for the respective area of application
 - Proof of practical experience (certificate of competence)
 - Proof of successful participation in recognised courses
 - Proof of the valid expertise of the person certifying the practical experience or the medical physics expert providing training
 - Proof of at least three years' professional experience of the medical physics expert providing training (if applicable)

Voraussetzungen

The person who is to be certified as an expert in radiation protection,

- has appropriate training for the respective field of application,
- can demonstrate the necessary practical experience and
- has successfully participated in the courses to acquire the required expertise.

Kosten

depending on the individual case between EUR 250 and EUR 1,500

Verfahrensablauf

If you have all the necessary evidence for acquiring the specialist knowledge, you or your employer can apply to the competent authority for radiation protection for

Modul	Sachverhalt
	a certificate of acquisition of specialist knowledge in radiation protection: • You can apply for the certificate of acquisition of radiological protection expertise electronically or in writing. • It is also possible for the competent authority to approach you and ask you to submit proof of the required expertise. • The authority will check the documents submitted and the requirements and, if the check is positive, will send you the certificate of the required expertise.
Bearbeitungsdauer	
Frist	• Successful participation in the courses to acquire the required expertise must not date back more than 5 years in total. • The specialist knowledge must be updated at least every 5 years by successfully participating in a recognised course or training course.
