Modul

Sachverhalt

- Aircraft
- Rotorcraft (example: helicopters)
- Motor gliders
- Gliders
- Free balloons (example: hot air balloon)
- Air sports equipment

Note: The licences for commercial and professional pilots as well as the licences for air sports pilots (microlight aircraft, hang gliders, paragliders and parachutists) do not fall under the responsibility of the state aviation authorities (Regierungspräsidien). Here, the Federal Office of Civil Aeronautics is responsible for transport/professional aircraft pilots and the air sports associations for air sports equipment pilots.

Air transport licences are issued for an unlimited period.

Ratings in airman's licences are partly limited in time and can be extended after the minimum requirements have been met. This is done by a handwritten entry on the back of the licence or by reissuing it.

In order to be able to exercise rights from a licence, proof must also be provided in part in the pilot's personal logbook.

Erforderliche Unterlagen

are to be taken from the necessary applications

Voraussetzungen

- Personal requirements:
 - physical and mental fitness determined by an aviation medical expert
 - reliability of character and reliability according to § 7 Aviation Security Act
- Technical requirements:
 - are defined in the European regulations issued by EASA, in each case relating to the type of aircraft and the authorisation
 - for air sports equipment in the regulation on aviation personnel

Modul

Sachverhalt

Note: The individual requirements can be obtained from the aviation schools or the state aviation authorities.

Kosten

Fees are charged in accordance with the Aviation Administration Cost Regulation.

Verfahrensablauf

For the renewal of ratings in an aviation licence, you must, depending on the type of rating, demonstrate:

- a certain number of flying hours, take-offs and landings, and practice flights with an instructor, or
- a proficiency check by recognised examiners, and
- physical and mental fitness, as determined by an aero-medical expert, by presentation of a medical certificate
- for instructors, the certificate of attendance at a refresher course and an assessment of competence may be required

You will need to submit evidence such as a medical certificate together with your renewal application. You can find out exactly what is required in the relevant application.

If ratings with expiry dates are renewed by flight instructors or examiners on the back of the pilot licence, they must complete the necessary forms and submit them to the competent authority.

Bearbeitungsdauer

When applications are received, they are checked and, if complete, processed as quickly as possible, depending on the work situation.

Frist

An authorisation whose validity has expired can only be renewed under more difficult conditions.
