| Volltext                      | <p>If you want to discharge wastewater into a private wastewater system, you need a permit. Under certain conditions, the permit requirement does not apply. You apply for the permit at the responsible office.</p> <p>Public wastewater plants are available to the general public, private ones to a restricted group of users, for example plants in a chemical park.</p> <p>For certain industries and activities (such as chemical industry, paper production, metal processing, cooling water use), pollutants are to be expected in the wastewater that are not sufficiently purified in a municipal wastewater treatment plant. Requirements are specified for this in the industry-specific annexes to the Wastewater Ordinance.</p> <p>To comply with these requirements, special measures and wastewater pretreatment facilities are needed to reduce the pollutant load so that the wastewater can then be treated without harm in a public or private</p> |
