types with restrictions due to the choice of tree species, the extension of rotation periods, the preservation of biotope trees and biotope tree candidates,

- for certain species in FFH areas with restrictions due to the preservation of habitat trees and candidate habitat trees, old and dead wood, old wood islands,
- for areas in European bird sanctuaries with restrictions on use and
- increased administrative expenses (e.g. increased traffic safety obligations, additional information, planning and coordination expenses).

Excluded from a grant are difficulties on areas that have been transferred to the owner free of charge for the purpose of nature conservation. Furthermore, forest areas for which no use is permitted by public law contract or legislation are excluded from compensation payments.

These include in particular

- Nature conservation areas with no possibility of use,
- eco-account areas with no possibility of use,
- compensatory measures under nature conservation law with no land use,
- areas in nature conservation projects that cannot be used.

****Who is eligible for funding?****

Recipients of funding are private forest owners or their associations, including consortia.

****How is funding provided?****

The grant is awarded as fixed-amount funding.

The annual amount of the grant is

- EUR 25.00 per hectare for forest areas in FFH areas

to compensate for the increased administrative costs; the grant is limited to an area of up to 100 hectares per operation,

- EUR 88.00 per hectare for forest areas with identified forest habitat types in FFH areas,
- EUR 104.00 per hectare for forest habitats of the hermit in FFH areas,
- EUR 56.00 per hectare for forest habitats of the greater mouse-eared bat or the pug bat in FFH areas,
- EUR 165.00 per hectare for lesser spotted eagle conservation areas in European bird sanctuaries in forests.

If several bindings pursuant to 5.2 of the Directive (Forest Compensation Directive - Forest EARL M-V) coincide on one area, the grant is calculated on the basis of combinations.

Maximum amount: The grant is limited to EUR 200.00 (capping limit) per hectare and year.

Erforderliche Unterlagen

- Company number for application from the responsible office
- Application for support and payment
- Area registration via agricultural application
- Obligations and declarations
- Measures diary for each forest block applied for
- Cartographic representation of habitat and hermit trees
- Further documents individually, depending on the type/scope of application for on-site inspections

Voraussetzungen

The forest area must be located within the Natura 2000 areas registered by the state of Mecklenburg-Vorpommern.

Grants are only awarded for areas for which specialist reports on management plans, bat and hermit habitats are available or which are located in a lesser spotted eagle conservation area within a European bird sanctuary. The area of a forest block may not be less than 0.3 hectares. Deviations from this rule may be permitted by the responsible specialist supervisory
