least eight weeks before the expiry of the time limit at the immigration authority responsible for your place of residence.

The same conditions apply for the extension as for the issue. In particular, you should continue to work in the IT sector and be able to demonstrate a certain salary.

The Federal Employment Agency approved your residence permit when it was first issued. If the validity of the approval has expired, it must be granted again for the extension of your residence permit.

You may have been obliged to take part in an integration course when your residence permit was first issued. If this is the case, this must be taken into account when extending your residence permit. If you have not yet taken part in an integration course, the immigration authority may reject your application to extend your residence permit. If you have not yet completed the integration course, your residence permit will generally only be extended for one year at a time until you successfully complete it or provide proof that you have been integrated into society and social life in another way.

If your residence permit is extended, it will be limited in time again. The duration of the time limit depends on the duration of your employment contract or the period of validity of the approval of the Federal Employment Agency.

As a rule, the residence permit cannot be extended if this was already ruled out when the residence permit was issued or last extended.
