Teaser	Basic material for the production of forest reproductive material that is to be placed on the market requires authorization.
Volltext	Basic material for the production of forest reproductive material that is to be placed on the market requires approval. A harvest stand, a seed orchard, several trees as family parents, a clone or a clone mixture (approval unit) are approved. The forest reproductive material is divided into different categories: • Harvested stands under the "Selected" category, • seed orchards under the category "Qualified" and • Harvested stands, seed orchards, family parents, clones and clone mixtures under the clone mixtures under the "Tested" category
Erforderliche Unterlagen	• Informal application by the forest owner or forestry association. • The application is submitted to the responsible forestry office and must contain the following information: \- Contact details of the applicant \- tree species \- Age and year of establishment of the stand \- Size of the reduced share area \- Information on the area and division/subdivision/subarea/treatment unit \- Geographical coordinates (if available) \- 2 maps of the forest area with information on the

Modul	Sachverhalt
	local connection
Voraussetzungen	informal written application
Kosten	Official acts under the Forest Reproductive Material Act • Approval of basic material for the production of forest reproductive material including entry in the register: EUR 100.00 to 500.00 • Revocation, amendment of the authorization or subsequent connection of the authorization with ancillary provisions: EUR 58.00 to 321.00
Verfahrensablauf	Application by the forest owner **to the responsible forestry office**. The forestry office informs the responsible state office (Competence Center for Forestry By-Production, Jatznick) about the application. The state office coordinates the inspection rounds (on-site assessment of the stands) of an expert committee appointed by the supreme forestry authority. The stands approved in this way are entered in a harvest approval register by the Land office. The federal states notify the Federal Office for Agriculture and Food of the register entries and the respective changes. The Federal Agency compiles a list of the approval units as a summary of the register.
Bearbeitungsdauer	1 to 2 years, as only 1 to 2 inspections are carried out per year.
Frist	none
