Teaser	Notify the Aviation Authority of the start of construction of an obstruction to aviation, such as a crane or construction equipment, after you have obtained a permit for that project.
Volltext	You must notify the aviation authority when you will begin construction of an aviation obstruction that requires a permit, such as facilities or construction equipment. To do this, you must have an aviation obstruction permit from the appropriate authority. Once you know the date construction will begin, you must notify the aviation authority immediately. Once construction is complete, submit the survey data to the aviation authority immediately. The aviation authority transmits the data to an air traffic control organization. The air traffic control organization publishes the survey data of the air traffic obstruction.

Modul	Sachverhalt
Erforderliche Unterlagen	• If applicable, the approval of the project by the competent authority
Voraussetzungen	• You have received approval for your project.
Kosten	• none
Verfahrensablauf	Notify the aviation authority when you will begin construction of an approved aviation obstruction. To do this, show the aviation authority your contact information, the permit, and the location and start date of construction of the aviation obstacle. You must submit the notice to the Aviation Authority before you begin construction. The aviation authority will then review your information. If you do not already have a permit for your project, you must apply for one beforehand from the relevant authority. When you are finished with the construction, provide the aviation authority with the actual survey data of the obstruction. Your data will be checked by the aviation authority and transmitted to an air traffic control organization. The air traffic control organization publishes the data for the safety of air traffic.
Bearbeitungsdauer	
Frist
