Modul

Sachverhalt

Some examination certificates (qualifications) from abroad are equated with the examination to become a farrier's apprentice farrier without an individual equivalence test. The equivalent examination certificates are listed in Annex 2 of the Farriery Recognition Ordinance. Examination of equivalence

If your examination certificate is not automatically equated, the competent authority will compare your professional qualification with the German professional qualification. The competent authority will check whether your professional qualification is equivalent. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

Possible results of the examination

If your professional qualification is equivalent, your foreign professional qualification will be recognized. The competent authority can confirm the result in writing. You must still meet the other requirements. You will then receive state recognition as an apprentice farrier.

Are there any significant differences between your professional qualification and the German professional qualification? You may be able to compensate for the differences through your professional experience, other knowledge, skills or abilities. You must provide evidence of your professional experience. Knowledge, skills and abilities must be certified by an authority in the country in which you acquired the knowledge or skills.

However, it may be that the significant differences cannot be compensated for by this knowledge, skills and abilities. In this case, your foreign professional qualification will not be recognized. You will then not be allowed to work as a farrier's apprentice in Germany.

However, the competent authority will tell you the main differences and why you cannot compensate for
