Teaser	You may only operate an egg packing station if it has been approved by the competent authority under market law and has been issued a packing station identification number.
Volltext	<p>Egg packing stations are establishments that grade, mark, pack and/or repack eggs according to quality and weight classes. Egg packing stations may only be operated if they have been approved by the competent authority under market law upon application and have been assigned a packing station identification number.</p> <p>If eggs are sold ex-farm (production site), at the doorstep or at a public market directly to the final consumer and not according to quality and weight grades, no approval as packing center is required.</p> <p>Direct marketers who market eggs through a trading partner (retailer, baker, kiosk, other direct marketer, etc.) or who want to offer eggs sorted by size and grade or who have a sales radius of more than 100 kilometers require approval as a packing center.</p>
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Proof of suitable premises • Proof of suitable technical facilities
Voraussetzungen	Only those enterprises that have the appropriate premises and technical equipment for grading eggs by quality and weight may be approved as packing centers.

Modul

Sachverhalt

Packing centers must have the following technical equipment necessary for the proper handling of eggs:

- an automatic or permanently manned candling machine/fluoroscopic lamp that allows the quality inspection of individual eggs
- device(s) for determining the height of the air chamber
- a device for sorting the eggs according to weight classes
- one or more calibrated scales for weighing the eggs (note: accurate to 1 gram)
- device(s) for marking eggs

The premises of the packing station and the technical equipment must be in good condition and clean and free from foreign odors.

Packing centers that work exclusively for the food and non-food industries are not required to have appropriate technical equipment for grading eggs by weight.

Kosten

Verfahrensablauf

You must apply to the competent body for approval as a packing station.

- The competent body will examine your application and you will receive a written decision on the result.
- If your application is approved, the authority will inform you of the identification number you need for marking the packs of eggs (packing station number).

The permit can be revoked at any time if the required conditions are no longer met.

Sachverhalt

Informationen

Hinweise

Eggs must be graded, marked and, if necessary, packaged within ten days of laying.

Sorted and, if applicable, packaged grade A eggs may only be delivered with the producer code printed on them.

Packages must be clean, shock resistant, dry and undamaged. The material of the packaging must protect the eggs from foreign odors and possible quality deterioration.

With the approval of the packing center, all marketing channels are open. The following lists must be kept:

- Purchasing list (number of eggs purchased per producer farm).
- grading list (number of eggs per category per day)
- Sales list (number of eggs sold with place and date of sale).

The obligation to keep the lists is 12 months.

Rechtsbehelf

Kurztext

- Approval of egg packing centers
 - packing centers must have suitable premises and technical equipment for sorting eggs by quality and weight classes
 - the relevant evidence must be submitted together with the application
 - if the packing center is approved, the authority will inform about the identification number
 - the identification number is required for marking the packing of the eggs.
 - competent authority: competent authority for the place of business
