Teaser	If you are a racing club and want to organize horse races and place bets, you need permission to operate a totalizer.
Volltext	<p>If you are a racing or horse breeding club and want to operate a totalizer on the racecourse on the occasion of public performance tests for horses or operate a betting office for horse races outside a racecourse, then you require a totalizer permit in accordance with the Race Betting and Lotteries Act.</p> <p>In totalizer betting, bettors bet against each other and not against a bookmaker. The totalisator is a procedure by which, in the run-up to the horse race, the respective winning odds are determined continuously from all bets placed up to the start of the race and the proper distribution of winnings is processed after the end of the race. Bets can be placed at the totalisator on the racecourse, but also at betting offices outside the racecourse.</p> <p>A small portion of the betting proceeds goes directly to the racing club, which must use it exclusively for the best interests of the state horse breeding program and for the organization of horse races.</p>
