Teaser	Have you obtained a degree in interior design abroad and gained professional experience? If you would like to practice your profession in Germany, you can apply for registration in the list of architects in your federal state.
Volltext	<p>The profession of interior designer is regulated in Germany. The job title is specially protected. This means that you need to be registered in the list of architects if you wish to use the professional title "interior designer" in Germany.</p> <p>You can also apply for jobs on the job market and work as an interior designer without being entered in the relevant list of architects. However, you may not then use the legally protected professional title "interior designer" and "interior architect" and are not authorized to submit building plans.</p> <p>If you are entered in the list of architects, you are, for example, also entitled to make a specialist building submission. This means that you may sign building plans for changes to buildings as the person responsible. You can also apply for entry in the list of architects in Germany with a qualification obtained abroad. This will be arranged by the relevant State Chamber of Architects after your documents have been checked.</p> <p>The responsible State Chamber of Architects will compare your professional qualification from abroad with the professional qualification in the selected</p>

respective Chamber of Architects:

- First submit your application and the required documents to the Chamber of Architects of the federal state in which you wish to work.
- If necessary, you will be asked to submit any missing documents.

- The competent body will carry out an equivalence check. The competent body will check whether your foreign professional qualification is equivalent to the German professional qualification as an interior designer.

- If your professional qualification is recognized and you meet the other requirements, you will be registered with the Chamber of Architects. You can then use the professional title "interior designer" in Germany. You will receive a certificate for this.

If significant differences are found, the equivalence of your professional qualification as an interior designer will not be certified. Then the following happens:

- You will receive a statement of reasons.
- You can take a compensatory measure to prove the missing knowledge. You can often choose between an adaptation period or an aptitude test.

If you successfully complete the compensation measure and meet the other requirements, you will be entered in the list of architects. You may then use the professional title "interior architect".

You can take legal action against the decision of the competent authority within a certain period of time (for example, by lodging an appeal). The decision will then be reviewed. Details can be found in the information on legal remedies at the end of your decision. You should first speak to the responsible office before taking legal action against the decision.

Bearbeitungsdauer

3 Monat(e)

You will receive confirmation of receipt within one month of submitting your application. A decision on your application will be made no later than 3 months after receipt of your complete documents. The deadline can be extended by one month.
