Teaser	If you wish to commission a direct current system or a low-frequency system with a rated voltage of 110 kilovolts, you must notify the competent authority.
Volltext	If your system does not require any other official permits relating to immission control, you must notify the responsible authority of the commissioning. You have at least 2 weeks before commissioning to do this. If you want to commission a low-frequency system with less than 110 kilovolts, you only have to submit the required documents if the competent authority requests you to do so.
Erforderliche Unterlagen	• Display with the relevant data for the system • Site plan
Voraussetzungen	• Your system crosses or lies • on a property in the area of a development plan or • within a built-up district or • on a plot of land with residential buildings in an outdoor area.
Kosten	
Verfahrensablauf	• You submit the notification with the site plan in writing by post or electronically by e-mail to the competent authority. • The competent authority will receive your
