Teaser	If you wish to make a significant change to a direct current system or a low-frequency system with a nominal voltage of 110 kilovolts, you must notify the competent authority.
Volltext	If your installation does not require any other official permits relating to immission control, you must notify the competent authority of any planned significant change. You have at least 2 weeks before the change is carried out to do this. If you want to make a significant change to a low-frequency installation with less than 110 kilovolts, you only have to submit the necessary documents if the competent authority requests you to do so.
Erforderliche Unterlagen	• Display with the relevant data for the system • Site plan
Voraussetzungen	• on a property in the area of a development plan or • within a built-up district or • on a property with residential buildings in an outdoor area. • Your system crosses or lies
Kosten	
Verfahrensablauf	• You submit the notification with the site plan to the
