Sachverhalt

Some commercial activities require a permit. Others are subject to supervision. Additional requirements apply to them.

Find out at an early stage what personal, financial and professional requirements you need to fulfill in order to be able to operate in these business areas.

You can register your business in person, in writing or electronically. Use the "Business registration" form (GewA 1) for this purpose. If you are not registering the business yourself but as a managing partner or legal representative, you will need a written power of attorney.

If you register your business in writing or electronically, you will receive confirmation of your business registration (the so-called "trade license") within 3 days, provided you have filled out the registration form completely and correctly. If you come in person, you will receive the confirmation directly upon registration.

The responsible office will forward the business registration to other offices such as the tax office, the Chamber of Crafts or Chamber of Industry and Commerce, the registration office and the employers' liability insurance association.

If a permit is also required for your business (e.g. security business, operation of a restaurant) and this is not available, the competent authority can prohibit the continuation of the business.

The procedure can also be handled by a single point of contact.

Bearbeitungsdauer

• If you come in person: immediately • In the case of written or electronic registration: within 3 days, provided the business registration form has been filled out completely and correctly and the required documents are available

you set up your business. A fine may be imposed for late notification.

weiterführende Informationen

If you change your legal form, you must submit both a business deregistration (to cease operating under the old legal form) and a business registration (to start operating under the new legal form).

What is a trade:

A trade is any activity that is not socially unvaluable, is intended to make a profit, is intended to be permanent and is carried out independently in its own name and for its own account. It does not matter whether a profit is actually made.

In particular, activities of no social value, liberal professions (such as doctors, lawyers or tax consultants) or other activities that require a university degree are not considered a trade. Primary production (e.g. agriculture and forestry), scientific management consultancy or the management of one's own assets (e.g. a block of flats) as well as generally prohibited or socially unworthy activities (e.g. illegal gambling) are also not a trade.
