Voraussetzungen

- The test is essential and cannot be replaced by alternative methods. It has not been carried out in this way to date, and a gain in knowledge has been plausibly demonstrated.
- Personnel requirements are met: If you manage, plan and carry out animal experiments, you must provide evidence of expertise, in particular with regard to the stressful interventions and treatments, in relation to the intervention and the animal species
- the necessary facilities, equipment and other material resources are available
- For animal experiments carried out in laboratory animal facilities, a permit for the relevant animal species is required in accordance with the Animal Welfare Act.

Kosten

Is based on the respective administrative fee schedule of the federal state or on the fee statutes of the authorities responsible under federal state law.

Verfahrensablauf

Once you have submitted the required documents,

Modul	Sachverhalt
	<p>they will be checked for formal completeness. You will receive a formal confirmation of receipt. The application will then be submitted to the Commission for review at the next possible meeting. The Commission's opinion will be taken into account by the competent authority during the assessment. In addition, an opinion is obtained from the responsible animal welfare officer. If there are any questions or need for clarification, you will be asked to comment on this in writing before a final decision is made.</p>
Bearbeitungsdauer	<p>The competent authority must notify you of a decision on the application within 40 working days of receipt of an application that complies with animal welfare regulations. The deadline can be extended once by up to 15 working days. The clarification of open questions also leads to a suspension of the deadline. Even after the deadline has expired, the experimental project may only be started once approval has been granted.</p>
Frist	<p>Missing documents will be requested subsequently. The deadline for a decision on the application is only counted from the time all the required information is available. You may only start the animal experiment after receiving the approval.</p>
