If you wish to establish a patent law firm in the legal form of a GmbH, you must apply for admission as a patent law firm.

In addition to the GmbH, partner companies, civil law companies, etc. can also be founded. Although these must also comply with the professional requirements (in particular Section 52a of the German Patent Attorney Act), they do not require approval from the competent authority.

Like patent attorneys, the partners of a patent law firm may offer the following activities:

- Advice on inventions, trademarks, designs, know-how, plant variety protection and the like
- Registration of all industrial property rights
- Prosecution of infringements of industrial property rights (unless representation by attorneys-at-law is required)
- Representation before the German Patent and Trademark Office, Federal Patent Court, Federal Plant Variety Office and other international IP authorities
- Representation before the Federal Supreme Court in
