Teaser	For adjacent operations, the Authority shall consider whether domino effects exist.
Volltext	<p>In accordance with the Major Accidents Ordinance, the competent authority is obliged to determine vis-à-vis the operators of establishments which establishments or groups of establishments may be subject to an increased likelihood of major accidents due to their geographical location, their distance from each other and the hazardous substances present in their installations, or where such major accidents may have more severe consequences (domino effect). For the assessment, the authority uses in particular</p> <ul style="list-style-type: none"> • the information provided by the operator in the notification and in the safety report, • the information provided by the operator following a request by the competent authority for additional information, and • the information obtained by the competent authority through monitoring activities. <p>The information to be provided by the operator shall also include circumstances in the immediate vicinity of the operating area that may trigger an incident or aggravate its consequences, e.g. details of neighboring operating areas, of other operating sites not covered</p>

Sachverhalt

by the Hazardous Incident Ordinance, and of areas and developments from which an incident could originate or where the probability of the occurrence of an incident may increase or where the effects of an incident and domino effects may aggravate. If the authority has additional information beyond this, it shall make it available to the operator without delay, insofar as this is necessary for the cooperation of the operators.

Erforderliche Unterlagen

Voraussetzungen

Kosten

Fees are incurred for the assessment notice, which are based on the respective fee ordinances of the federal states.

Verfahrensablauf

The procedure for determining a domino effect is initiated by the competent authority. The assessment is made on the basis of

- the information provided by the operator in the notification and in the safety report,
- the information provided by the operator following a request for additional information by the competent authority, and
- the information obtained by the competent authority through surveillance activities.

If the conditions for a domino effect are met, the competent authority shall issue a declaratory decision to the operators concerned.
