If the technical data for the vehicle is already stored at the registration office of the district, a replacement document can be issued to you immediately.

If the technical data for the vehicle is not stored, a clearance certificate must be applied for at the registration office. The clearance certificate must then be submitted to the manufacturer, who can issue a replacement type approval.

If the manufacturer no longer exists or the vehicle was manufactured in-house, the clearance certificate must be submitted to a testing organization. The testing organization will issue a technical report. The registration office can issue the replacement type approval on the basis of the test organization's report.
