impact, you must submit several documents with your application, for example an explanatory report, site plans and sketches of the pumping system and transport systems. Depending on the type of project, the documents can be very different and extensive. If in doubt, you should clarify in advance with the authority which documents are required in your case.

The permit specifies the type and extent of use. It may be linked to conditions and ancillary provisions. In contrast to an authorization, a permit can be revoked by the authorities.

Erforderliche Unterlagen

The documents you need for your application vary depending on the type and scope of your project. In a preliminary discussion with the responsible water authority, you can clarify which documents are required in your case.

As a rule, several or all of the following documents are required:

- Explanatory report
- General site plan as a topographical map in which the existing or planned facility is shown in color
- Current cadastral site plan in which the existing or planned installation is shown in color
- Information on the type of installation
- schematic representation of the facility in plan and section
- accompanying nature conservation planning, including entry in the compensation area register for new facilities
- If applicable: Technical contribution to the Water Framework Directive

In individual cases, you must submit further documents on request.

Voraussetzungen

- The responsible authority has a permit for the project under water law.
- The water body and the public water supply are not endangered by your use.
- Your project does not fall under public use, for which no permit under water law needs to be applied for.
