Modul	Sachverhalt
Leistungsschlüssel	99050043006000, 99050043006000
Leistungsbezeichnung I	Energy supply: Operation of energy supply networks - approval
Leistungsbezeichnung II	
Typisierung	2/3 - Bund: Regelung (2 oder 3), Land/Kommune: Vollzug
Quellredaktion	Thüringen
Freigabestatus Katalog	unbestimmter Freigabestatus
Freigabestatus Bibliothek	unbestimmter Freigabestatus
Begriffe im Kontext	
Leistungstyp	Leistungsobjekt mit Verrichtung
Leistungsgruppierung	Gewerbe (050)
Verrichtungskennung	Genehmigung (006)
SDG-Informationsbereich	Eintragung, Änderung der Rechtsform oder Schließung eines Unternehmens (Registrierungsverfahren und Rechtsformen für geschäftliche Tätigkeiten), Erlangung

Modul	Sachverhalt
	von Lizenzen, Genehmigungen oder Zulassungen im Hinblick auf die Gründung und Führung eines Unternehmens
Lagen Portalverbund	Erlaubnisse und Genehmigungen (2010400), Anmeldepflichten (2010100)
Einheitlicher Ansprechpartner	Nein
Fachlich freigegeben am	14.04.2015
Fachlich freigegeben durch	Thuringian Ministry for the Environment, Energy and Nature Conservation
Handlungsgrundlage	http://www.gesetze-im-internet.de/enwg_2005/_4.htm http://www.gesetze-im-internet.de/enwg_2005/_4.htm
Teaser	The operation of a power supply network must be approved by the competent authority.
Volltext	If you intend to operate an energy supply network, you will need approval from the authority responsible under state law.
Erforderliche Unterlagen	**Information on the company by** • Presentation of articles of association or partnership agreement and annual report; indication of shareholdings in the company and shareholdings of the company • Proof of the legal form of the company by submitting the excerpt from the commercial register, association register or cooperative register **Information on the network by** • The right to operate the pipeline network in the designated area must be evidenced by a validly concluded concession agreement or equivalent arrangement. • Proof of ownership or right to dispose of the

networks

- Representation of the supply network by indicating all concession areas and by submitting corresponding network overview maps, if possible in digital form, from which the line route for the existing voltage and pressure levels as well as the respective feed-in points from the higher-level networks can be seen.
- Information about the network levels:

****For electrical installations (ELT):****

- Presentation of the existing voltage levels (line kilometers and average age in each case), additionally information on the number and average age of the substations or transformer stations.

****For gas:****

- Presentation of pressure levels (line kilometers and average age in each case), plus information on the number and average age of pressure regulating stations.
- Presentation of the network shares, broken down by voltage levels and pressure levels as a percentage in relation to the length of the entire supply network; information on the number and average age of service connections

****Proof of personnel and economic capacity by submitting the following documents****

- Presentation of the exact operational and organizational structure, including a detailed organizational chart, a meaningful list of personnel with details of their respective qualifications, and an overview of key contacts
- proof of equity capital, letter of comfort if applicable, information on any existing company transfer agreements, bank information and current annual
