Teaser	If you want to establish an expert organization that inspects facilities for handling substances hazardous to water, prepares expert reports and certifies or monitors specialized companies, you must apply for recognition from the competent authority.
Volltext	<p>According to § 47 of the Ordinance on Installations for Handling Substances Hazardous to Water (AwSV), tests on installations for handling substances hazardous to water must only be carried out by experts.</p> <p>In order to be able to appoint experts to inspect facilities for handling substances hazardous to water (heating oil storage tanks, filling stations, etc.), to prepare expert reports as part of suitability determinations and to certify or supervise specialized companies on behalf of your expert organization (SVO), you must apply for recognition from the competent authority of the country in which the headquarters of your organization is to be located. The Thuringian State Office for the Environment, Mining and Nature Conservation is responsible for the recognition and supervision of SVOs that have their headquarters in Thuringia.</p>
Erforderliche Unterlagen	
Voraussetzungen	<p>An organization can be recognized as an expert organization according to § 52 AwSV if it</p> <ol style="list-style-type: none"> 1. designates a natural person authorized to represent it and proves its authority to represent it to the competent authority, 2. proves that a technical management and a deputy have been appointed who meet the requirements applicable to experts, 3. has appointed a sufficient number of experts who meet the legal requirements and are bound by the technical management's professional instructions, 4. has established principles which are to be observed

Modul

Sachverhalt

during the plant inspections
 5. provides evidence of an operational quality assurance system,
 6. provides proof of the existence of liability insurance for soil and water damage for the activities of its experts with coverage of at least 2.5 million euros per claim, and
 7. declares that it indemnifies the countries in which the experts carry out tests from any liability for the activities of its experts.

The quality assurance system must ensure that suitable organizational structures are in place to guarantee proper plant inspections. In particular, it shall contain requirements for the control of test reports and test equipment, for the performance of individual interviews with the authorized experts as well as for the control of the inspection activities of the authorized experts at reference plants.

When examining the application for recognition, evidence of individual requirements from another member state of the European Union or another state party to the Agreement on the European Economic Area shall be deemed equivalent to domestic evidence if it is evident from it that the organization meets the relevant requirements or the requirements of the issuing state which are essentially comparable on the basis of their objectives.

The information on the requirements for recognition can be found in the LAWA leaflet on the recognition of expert organizations pursuant to Section 52 and of quality and monitoring associations pursuant to Section 57 of the Ordinance on Installations for the Handling of Substances Hazardous to Water (AwSV).
