Teaser	Does your company want to install, maintain, maintain, repair or shut down plants with fluorinated greenhouse gases, as well as check for leakor or recover the gases? Then you need a certificate.
Volltext	If you install, maintain, maintain, repair or shut down plants with fluorinated greenhouse gases, and check for leakiness or recover the gases, you need a certificate for your company. This is provided by the responsible authority.
Erforderliche Unterlagen	• Completed application for operational certification • Copies of staff certificates covering the activities in question.
Voraussetzungen	Sufficient competent staff must be available for the installation, maintenance or maintenance of installations. It must also have access to the tools and procedures required for the activities subject to certification.

Modul

Sachverhalt

For activities related to fire protection systems and fire extinguishers, sufficient staff with a certificate of expertise must be available for the annual expected volume of activities and the necessary technical equipment must be sufficient in terms of type and number.

Registered EMAS establishments may obtain the certificate if the environmental declaration or the environmental audit report shows that the above conditions are met and that the following information can be seen:

- Name and registered office of the company
 - Designation of the site as well as the certified activities in relation to the site and its facilities
 - Name of the authority (competent body), date and signature
- <https://www.emas-register.de/der-weg-zur-emas-registrierung>
<https://www.emas-register.de/der-weg-zur-emas-registrierung>

Kosten

The cost of certification depends on the time required, in accordance with the general administrative cost regulations in conjunction with the management cost regulations of the business unit.

Verfahrensablauf

Bearbeitungsdauer

The processing will be carried out promptly after receipt of your application.

Frist

Since 5 July 2009, all companies carrying out installation, maintenance and repair ranges on refrigeration and air conditioning systems as well as heat pumps and fire protection systems require certification.
