Verfahrensablauf

Bearbeitungsdauer

Frist

You will receive BAföG from the beginning of the month in which you start your studies at the earliest, but only once you have submitted an application. You should therefore submit your first application immediately after you have been accepted by the foreign school or admitted to study abroad. Educational support is usually granted for the duration of your education abroad, but for a maximum period of twelve months. After that, you must submit an application for further funding. Due to the more time-consuming processing of applications for funding abroad, it is advisable to submit your application at least six months before your planned stay abroad.

Hinweise

If you are not eligible for financial support in Germany due to your parents' financial circumstances, you can still apply for financial support abroad, as supplements for tuition fees, travel expenses and health insurance are paid for education abroad within the European Union or Switzerland. For education abroad outside the European Union and Switzerland, an additional monthly foreign allowance may be granted to compensate for differences in purchasing power.
