Handlungsgrundlage	Act on the Placing on the Market, Take-Back and Environmentally Sound Disposal of Electrical and Electronic Equipment (Electrical and Electronic Equipment Act - ElektroG) Waste disposal statutes of the districts and independent cities https://www.gesetze-im-internet.de/elektrog_2015/ https://www.gesetze-im-internet.de/elektrog_2015/
Teaser	The waste disposal of private households and thus also the disposal of electronic waste from private households is the responsibility of the districts and independent cities as public waste disposal authorities.
Volltext	According to the Electrical and Electronic Equipment Act (ElektroG), electrical and electronic equipment may not be disposed of with normal household waste. The public waste disposal authorities (districts and independent cities) are obliged to take back old electrical appliances from citizens free of charge and to pass them on to the responsible manufacturers and distributors for further treatment and recycling or to recycle them themselves. In most districts and independent cities, large appliances are taken along for bulky waste collection or separately and the small electrical appliances can be handed in at the collection points. Many retailers also take back old appliances in stores. The disposal is already financed by the citizen at the time of purchase of the product, so that the disposal must then be free of charge for the citizen (product responsibility).
Erforderliche Unterlagen	Please ask the public waste management authority responsible for you which documents you need to submit.
Voraussetzungen	Consultation with the public waste disposal authorities required

Modul	Sachverhalt
Kosten	none
Verfahrensablauf	Consultation with the public waste disposal authorities required
Bearbeitungsdauer	individual
Frist	Consultation with the public waste disposal authorities required
