Verfahrensablauf

Before you submit the application, you must already have the license to practice as a pharmacist or a professional license in Germany.

You apply for recognition of your advanced training designation as a specialist pharmacist at the responsible state chamber of pharmacists:

 - If necessary, you will be asked to submit any missing documents.
 - The responsible office will check whether your professional qualification is equivalent. The

professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

- If your qualification as a specialist pharmacist is recognized, you can work in the profession in Germany. You will receive a notification.

If significant differences are found, the equivalence of your qualification as a specialist pharmacist will not be certified:

- You will receive a statement of reasons.
- You can take an aptitude test or an adaptation course to prove the missing knowledge.
- If you successfully pass the aptitude test or the adaptation course, you will receive recognition. You may then use the title "Fachapothekerin" or "Fachapotheker" for your specialization.

You can take legal action against the decision of the competent body within a certain period of time (for example, file an objection). The decision will then be reviewed. Details on this can be found in the appeal instructions at the end of your decision. We recommend that you first talk to the responsible office before taking legal action against the decision.
