protection products in the context of a training relationship or an auxiliary activity,

if you hold a certificate of competence in plant protection issued by the competent authority.

If you use plant protection products professionally or give advice on them, apply for the certificate of competence for the use of plant protection products including advice using the nationwide online database.

Please note that this certificate does not include the dispensing of plant protection products.

You can upload the required documents (certificates, attestations, declaration of assumption of costs) online in the application procedure. The application is processed by the competent authority of the federal state in which the applicant's primary residence is registered.

If all requirements are fulfilled, you will receive a notification with the recognition of the expertise. Once payment has been received, the certificate of competence cards are produced once a month throughout Germany. The card will be sent to you by post by the printing service provider.

via the tile of the relevant federal state. The certificate of competence can be applied for with or without registration. Afterwards the mandatory fields with the applicant's details have to be filled in. After entering the security code, you will be taken to the application page. Enter the application type here. The application type "Application" includes the application of plant protection products and the application type "Dispensing" includes the sale of plant protection products. After confirming the required German language skills and accepting the data protection declaration, you can upload your copies of certificates, such as a certificate of proficiency or an expert examination certificate. Finally, you submit the application by clicking the corresponding button. After submitting your data, a short message will appear in the online portal informing you whether your application has been successfully submitted. You will not receive a separate e-mail or further confirmation. It is not necessary to additionally send the signed application by post.

Alternatively, if you are unable to upload the certificate yourself, please send a copy by post to the relevant office.

Plant protection experts from EU member states who want to use plant protection products in Germany also need a German certificate of expertise.

For technical reasons, it is not possible to apply for the German certificate of competence via the online database.

Please contact the plant protection service or the office responsible for the application in the federal state where you want to work directly.

For this purpose you can use the office finder on the homepage.

Old experts or new experts who completed their training more than 3 years ago require, in addition to the certificate, proof of participation in a recognised further training course on plant protection expertise.
