Teaser	Physicians require an authorization for the medical monitoring of occupationally exposed persons in the field of radiation protection.
Volltext	Are you a doctor and would like to carry out medical monitoring of occupationally exposed persons in accordance with the Radiation Protection Ordinance? Then you need an authorization. If you can prove that you meet the necessary requirements, you can apply for authorization. In particular, you must • have a license to practice medicine and • specialist knowledge in occupational medicine and • proof of specialist knowledge in radiation protection for medical monitoring in the event of occupational exposure.

Modul	Sachverhalt
	The specialist knowledge in radiation protection must be demonstrated at least every five years by successful participation in a refresher course.
Erforderliche Unterlagen	• License to practice medicine • Proof that the above-mentioned requirement of "several years of practical experience in areas relevant to the areas relevant to the tasks of the authorized physician" in one of the approved forms is fulfilled • Certificate of specialist knowledge regarding the required specialist knowledge in radiation protection for authorized physicians
Voraussetzungen	Upon application, anyone who can prove the following can be authorized: • is authorized to practice medicine (license to practice medicine), • several years of practical experience in areas relevant to the tasks of the authorized physician relevant areas. This is fulfilled by: Specialist in occupational medicine or Doctor with additional qualification in occupational medicine or Physician with occupational medical expertise. If none of the above points are fulfilled, an additional course on the occupational health assessment of workplaces for physicians to be authorized must be successfully completed. Requirements for the certification of specialist knowledge in radiation protection for authorizing physicians: • Basic course in radiation protection for physicians • Special course for physicians to be authorized and • Expertise of at least six months of activity including 25 examinations of occupationally exposed persons under the guidance and responsibility of an authorized
