Teaser	Under certain conditions, mothers and fathers are entitled to a mother/father-child measure from their health insurance company.
Volltext	<p>A mother/father-child measure is inpatient medical treatment for mothers and fathers who are burdened or endangered due to their family situation. The measure can also be used by mothers or fathers alone.</p> <p>The measure is carried out in an institution of the Müttergenesungswerk or a similar institution. You will also live there during the treatment, which is geared to the needs of the mothers and fathers due to their individual stress situation.</p> <p>The institution is selected by your health insurance company, which has to take your wishes into account as far as possible.</p> <p>The mother/father-child measures usually last three weeks, for children under 14 years four to six weeks. They can be repeated at the earliest after four years. If there is a justified medical need, an extension or a new benefit can be requested.</p>
Erforderliche Unterlagen	The mother/father-child measure must be prescribed by a doctor. Application and prescription go to the health insurance company for examination and approval and are examined by the medical service if necessary.
