Sachverhalt

Specialist dental qualifications completed in a third country will be checked individually to determine whether and to what extent your foreign qualification corresponds to a German qualification for the profession of specialist dentist or whether there are significant differences between the foreign and German qualifications. This review is based on various criteria, such as the content and duration of the training. Your relevant professional experience can be taken into account as well as other professional qualifications. For academic qualifications, you can apply for an assessment by the Central Office for Foreign Education (ZAB).
